August 2010

Quemetco, Inc. operates two non-ferrous metals smelting and refining facilities. The location and U.S. EPA identification numbers of the recycling facilities are as follows:

Quemetco, Inc.	Indianapolis, IN	IND 000199653
Quemetco, Inc.	City of Industry, CA	CAD 066233966

The facilities recycle spent lead acid batteries, the facilities' primary raw material, and other lead scrap and processes them into pure lead and lead alloys. These lead products are sold to battery manufacturers and lead users in other industries. The facilities also recycle the plastic used in battery casings which is processed and cleaned for sale.

The facilities are subject to multiple levels (Federal, State and local) of legislation, regulation, and standards concerning air emissions, wastewater, solid waste disposal and worker exposure. Quemetco believes that each of its facilities has the necessary permits, licenses and authorizations under all applicable laws, statutes, and regulations, standards and rules to operate the facilities.

Additionally, the Quemetco secondary lead smelters are in compliance with applicable substantive provisions of any Federal, State, or local environmental law or regulation, or applicable substantive provisions of a compliance order or decree issued pursuant thereto, applicable to the handling processing, reclamation or other management activities associated with spent lead-acid batteries and other lead-bearing materials.

Very truly yours,

August 2010

Revere Smelting & Refining Corporation operates a non-ferrous metals smelting and refining facility in Middletown, New York. The EPA ID Number for that facility is NYD 030485288.

The facility recycles spent lead acid batteries, the facility's primary raw material, and other lead scrap and processes them into pure lead and lead alloys. These lead products are sold to battery manufacturers and lead users in other industries. The facility also recycles the plastic used in battery casings and manufactures and sells sodium sulfate.

The facility is subject to multiple levels (Federal, State and local) of legislation, regulation, standards concerning air emissions, wastewater, solid waste disposal and worker health and safety requirements. Revere believes that its facilities has the necessary permits, licenses and authorizations under all applicable laws, statutes and regulations, standards and rules to operate.

Additionally, the Revere secondary lead smelter is in compliance with applicable substantive provisions of any Federal, State, or local environmental law or regulation, or applicable substantive provisions of a compliance order or decree issued pursuant thereto, applicable to the handling processing, reclamation or other management activities associated with spent lead-acid batteries and other lead-bearing materials.

Very truly yours,

AUTHORIZED ACTIVITIES

In reference to the application of Toxco, Inc. for an Ohio Hazardous Waste Facility Installation and Operation Permit under Ohio Revised Code (ORC) Chapter 3734 and the record in this matter, you are authorized to conduct at the above-named facility the following hazardous waste management activities:

Storage of Hazardous Waste in Containers

PERMIT APPROVAL

r4;c}{ZJ!(

Joseph P. Koncelik, Director
Ohio Environmental Protection Agency

This permit approval is based upon the record in this matter which is maintained at the offices of the Ohio Environmental Protection Agency. The Director has considered the application, accompanying information, inspection reports of the facility, information disclosed by the facility as required by ORC 3734.42, and such other information as is relevant to the operation of the facility. The Director has determined that the facility meets the requirements and conditions to subsequently operate the facility under ORC Chapter 3734, and the applicable rules adopted thereunder.
